### Portfolio— *Website*

I created my responsive portfolio using HTML, CSS, JavaScript, and Bootstrap. It features projects like a Blackpink fan site, a rollerskating landing page, and a weather app with API integration. Each project highlights my web development skills and creativity.

### Emma. 2020— *Landing Page*

I built the Emma 2020 project using HTML, CSS, and JavaScript. This interactive site showcases my ability to create dynamic and engaging web experiences. It demonstrates my proficiency in front-end development and attention to detail.

### The Hunter Valley— *Website*

The Hunter Valley site was developed with HTML and CSS. It highlights my skills in creating visually appealing and responsive designs, tailored to user interests. This project reflects my capability to design engaging content that inspires travel.
